

Inropa Modular Tiny House

Gorgeous and spacious Inropa Modular Tiny Houses with a surface area up to 70 m². This single-story bungalow consists of multiple Tiny House 'modules' and is suitable for a permanent or temporary residence permit. Size, layout, and design can be customized to your wishes. Affordable housing for everyone!

Inropa Greenbuild Tiny House

The iconic Inropa Tiny Houses with a surface area between 15 and 25 m², and the potential for sleeping lofts. Equipped with the Inropa Lift-off system (iLOS), allowing them to be used as a Tiny House on wheels (THOW) or as a fixed Tiny House. Ideal as a recreational vehicle (RV), mobile office or commercial stand. But also as a permanent weekend home or summer residence that could be moved again.

Inropa Tiny Escape

Forget the differences between a caravan, garden house or food truck. Think of it as all-in-one! Compact, surprisingly spacious, and multifunctional. Can be used as a mobile or fixed unit thanks to the Inropa Lift-Off System. For holidays, art studio, storage space, B&B, garden office, studio, recreation park, or as a food truck. The interior and color schemes can be customized to your wishes. A sleeping loft is also an option.
